About

Experienced manager with a 10+ years history of working in the IT consulting industry. Strong professional skilled in Architecture and Cloud Native applications development. I usually do a mix of IT strategy and actual technology delivery engagements. I'm currently the leader of Accenture Song's Cloud Native Applications community of practice.

Work

Accenture Song

November 2022 – Now

Associate Director

I currently lead the Cloud Native Applications practice for Accenture Song, where I'm responsible for a group of around 90 people and also for hiring, training and staffing our microservices and cloud architects. I'm still engaged in day-to-day client delivery activities, mainly working with architecture and software development for financial services clients.

Highlights

- Payments platform implementation

Accenture Song

October 2019 – November 2022

Senior Manager

Led the Cloud Native Applications practice for Accenture Song, where I was responsible for a group of around 70 people and also for hiring, training and staffing our microservices and cloud architects. I'm still engaged in day-to-day client delivery activities, mainly working with architecture and software development for financial services clients.

Highlights

- Open Banking regulatory implementation

Accenture Digital

January 2017 – October 2019

Manager

I rejoined the company in 2017 as a Manager for Accenture Digital, where I worked in several architecture engagements in the financial services industry.

Highlights

- Open Banking strategy and architecture
- Microservices reference architecture
- Event driven architecture

Bora Bike

June 2016 – January 2017

Head of Technology

Acted as head of technology for Bora Bike, a startup which aimed to be like a benefits program where company employees could earn points for riding a bike while commuting to work, and then exchange these points for prizes.

Accenture

February 2010 – June 2016

Intern, Analyst, Consultant

I joined as an intern in 2010, was hired as an analyst in 2011 and then left the company as a consultant in 2016.
